DETAILED ACTION

Claims 6- 19 are pending in the application.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 6- 12 and 14-19 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The formula of the oligomer of alternating ethynyl and theinyl groups is critical or essential to the practice of the invention, but not included in claim 6 and is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). If the applicant includes the formula of the oligomer in the claim this rejection would be overcome.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7-14 recites the limitation " functionalized at C2 " and "functionalized at C3". There is insufficient antecedent basis for this limitation in the claim. Examiner

Art Unit: 1626

suggest applicant must incorporate the formula of the oligomer into claim 6 and point out C3 and C2.

Claim 13 rejected under 35 U.S.C. 112, second paragraph, as being indefinite because it depends on a cancelled claim 1.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
